

Sage Timberline Office

Procurement TRA-SER Integrator

Procurement TRA-SER Integrator provides a link from Trade Service Corporation's TRA-SER Pro software to Inventory and Purchasing applications.

This software automates item pricing, giving you the ability to import and update your Sage Timberline Office database with items and pricing from the Trade Service solution.

With Procurement TRA-SER Integrator, you have direct access to Trade Service TRA-SER Pro software—pricing service software for electrical, plumbing, and HVACR components. You choose the Trade Service databases you want to use, which items and prices to import, and whether to adjust pricing by a multiplier or import it "as is." Once you've set up the integration, maintaining item pricing is as simple as a few mouse clicks.

BENEFITS

- Access to all TRA-SER databases
- Seamless integration with TRA-SER Pro

Item Code	Description	TS ItemCode	TRA-SER UPC Vendor/ItemCode	Vendor Item Code

◀ Save time maintaining your Sage Timberline Office Purchasing and Inventory item database using the Trade Service Corporation's Procurement TRA-SER Integrator to codes, vendor item codes, or others.

Features and efficiencies

- Integrate Sage Timberline Office Inventory and Purchasing applications with Trade Service TRA-SER Pro.
- Access the Trade Service electrical, plumbing, and HVACR databases.
- Initiate searches of your Sage Timberline Office databases for items with matching Trade Service UPC numbers and then update those items with Trade Service prices.
- Link as many Sage Timberline Office databases as you like to Trade Service databases.
- Access multiple item prices, broken carton prices, carton quantity prices, and manufacturer's prices.
- Adjust the Trade Service pricing you import up or down by a multiplier if needed.

Procurement TRA-SER Integrator is a part of Sage Timberline Office, fully integrated software created to streamline work and connect the people you depend on to build your business.
